

New CEO in Vimek

Fredrik Lundberg enter 17th of March 2010 as new CEO in Vimek AB. Mr Lundberg has been working almost 2 years now as General Manager in Vimek.

Fredrik Jonsson today CEO in both Vimek AB and Cranab AB will be new Chairman in Vimek. Since 2008 Cranab AB owns the majority in Vimek. Previous Chairman in Vimek, Hans Eliasson continues as member of the board in Vimek.

”We are glad to do this change of CEO in Vimek, the company have the last years developed and grown despite the last years financial situation. The idea that Mr Lundberg will take over as CEO has been our plan for a long time. We wanted to give Mr Lundberg the chance to grow in his responsibility during his two years time as general manager in the company” says resigning CEO Fredrik Jonsson.

”I feel extremely inspired and with great responsibility to lead this fantastic company Vimek. I have during the last three years been a part of Team Vimek and feel now huge inspiration to be a part of the development of the company and our products. We will continue our trip with developing our environment friendly forest machines in close relationship with our customers” says Fredrik Lundberg.

Vimek is the world leading manufacturer of small scale forest machines for thinning operations. Vimeks turnover is around 55 Msek and are today located in a new factory in the middle of the forest technology cluster in Vindeln.
